

Leaptel ADSL Unlimited Internet Plans

Information about the Service

Service Description

Leaptel's Unlimited ADSL Internet Plan is delivered via our preferred network carrier (OnNet) and when that is not available we deliver the service via Telstra's ADSL Network (OffNet). This is not a Naked DSL Service, you will need to have an active phone line with another provider to be eligible for this Plan. If you need ADSL and Telephone with Leaptel you will need to sign up to our ADSL & Phoneline Bundle Plan

Leaptel's unlimited ADSL2+ plan includes the following components:

- ADSL 2+

Availability

All ADSL2+ Internet plans are available at selected coverage areas and subject to infrastructure availability at customer's premises. To check for availability, please use the address checker at leaptel.com.au

Inclusions & Exclusions

Service Speed & Guarantee

Actual throughput speeds may be slower and could vary due to many factors including type/source of content being downloaded, hardware and software configuration, the number of users simultaneously using the network and performance of interconnecting infrastructure not operated by Leaptel. Devices connected by Wi-Fi may experience slower speeds than those connected by Ethernet cable.

CSG Waiver: The standard Monthly Charge and Setup pricing stated in the Information about Pricing section are based on new customers agreeing to waive the Customer Service Guarantee (CSG).

Minimum Term

Leaptel's ADSL Internet and Phone Bundle plans are supplied on either a no lock-in contract term (customers are permission to terminate the service by giving 30 days' notice), or 24 month contract term (early termination fees apply). See the Minimum Total Cost applicable to each plan in the information about pricing section.

Equipment required

If you do not already have a telephoneline installed inside your home, you or an authorised person over 18 years of age will be required to be home on the day of installation for a technical visit. If we find that you will require a technical visit to perform the installation, we will advise you of the date and time after registration. By completing a sign up with us you are giving your consent for a technician to access your property and install any equipment required to connect you to the network.

Any cabling that is required beyond the Network Boundary is your responsibility to install and maintain.

You need an approved ADSL2+ compatible router to connect your device to the Leaptel network.

Other Information

Usage Information

You can monitor your internet usage by logging into your Account online at simplicity.xi.com.au

Customer Service Contact Details

You can contact Leaptel customer service for Support & Billing assistance via **1300 205 327** or emailing support@leaptel.com.au, or for Sales assistance via **1300 205 327** or emailing sales@leaptel.com.au or via appropriate contact form to the appropriate area at leaptel.com.au/contact.

Dispute Resolution Process

If you are dissatisfied with the outcome of your customer service request and wish to take the matter further, please follow the escalation process outlined at leaptel.com.au/complaints-escalation-process.

Telecommunications Industry Ombudsman

If you are dissatisfied with the outcome of your complaint after following the above process, you may contact the TIO (Telecommunications Industry Ombudsman) for independent mediation. The TIO can be contacted by calling 1800 062 058 or visiting the TIO website at www.tio.com.au/making-a-complaint.
