## Inclusions & Exclusions

### Service Description

LeapTel's VoIP (SIP) Service is a voice service where the call is carried over LeapTel's network to your phone termination device.

The service is supported on:

- LBNCo
- NBN™
- OPENNetworks
- Opticomm

The service is billed monthly with call charges charged in arrears and the service rental charged in advance.

Our VoIP (SIP) Services are not suitable for those looking for emergency phone connections. It will not work during a power or signal failure and it is not guaranteed to work during an emergency. If you require this sort of phone service we recommend you look at other alternatives.

### Availability

LeapTel VoIP (SIP) plans are available at addresses that have an active LeapTel internet service or are in the process of having LeapTel internet installed.

To check for availability, please use the address checker at [leaptel.com.au](http://leaptel.com.au)

### Customer Service Guarantee

CSG Waiver: The standard Monthly Charge and Setup pricing stated in the Information about Pricing section are based on new customers agreeing to waive the Customer Service Guarantee (CSG)

### Equipment required

You will need to provide your own phone for the VoIP Service. The phone will need to connect to an ATA or compatible voice port on a modem or router. If you want your phone located in a different location to your router you will need to organise internal wiring between the modem and the preferred phone location. LeapTel is not able to assist with this nor take responsibility for the internal wiring should it fail. Any cabling that is required beyond the Network Boundary is your responsibility to install and maintain.

### Minimum Term

LeapTel's Business NBN™ Phone (SIP) plans are supplied on a no lock-in contract term (customers are able to terminate the service by giving 30 days' notice). No pro-rata credits or refunds are offered for services cancelled mid-month, any post paid costs will also be applied.
