

Connect to your router either via WiFi or using an ethernet cable to one of the four black ports on the back of the router.

On your computer or phone open up your web browser and type in the following into the address bar: 192.168.1.1

When it asks you for a username and password please use the following details:

Username: admin Password: password

S 192.168.1.1 ×	+	
← → C △ ① 192.168.1.1	←	
		Sign in http://192.168.1.1 Your connection to this site is not private Username Password Sign in Cancel

Once the router config page has loaded, please go to Basic > Internet

You will need to set the following setting:

Does your Internet connection require a login? – Set this to "No"

Then Click apply at the top of the page.

BASIC ADVANCED	3	Auto	~
Home	Internet Setup	Cancel Apply To	
Internet	Does your Internet connection require a login? O Yes		
Wireless 🖡			_
Attached Devices	Account Name (If Required) Domain Name (If Required)	WNR2000/5	1
Parental Controls	Internet IP Address		
Guest Network	Get Unitalitied with the Outset State IP Address IP Address	0 0 0	
	IP Subnet Mask Gateway IP Address		
	Domain Name Server (DNS) Address		
	Get Automatically from ISP Use These DNS Servers		
	Primary DNS Secondary DNS		
	Third DNS		
	Router MAC Address		
	Use Comparement minu-Audress Use This MAC Address	A0:04:60:20:A0:78	

Once the settings have been updated, the router should then reload and connect up with Leaptel.
