Inclusions & Exclusions

Service Description

Leaptel's Lightning Wholesale internet service is delivered via the Lightning Wholesale network to the network boundary point of your premises (normally an ethernet port in your property).

The Lightning Wholesale Internet service includes the following components:

- Broadband

Availability

All Lightning Wholesale internet plans are available at selected coverage areas and subject to infrastructure availability at customer's premises.

To check for availability, please use the address checker at leaptel.com.au

Service Speed & Guarantee

Actual throughput speeds may be slower and could vary due to many factors including type/source of content being downloaded, hardware and software configuration, the number of users simultaneously using the network and performance of interconnecting infrastructure not operated by Leaptel. Devices connected by Wi-Fi and Powerline Adaptors may experience slower speeds than those connected by Ethernet cable.

Minimum Term

Leaptel's Lightning Wholesale internet plans are supplied on either a no lock-in contract term (customers are able to terminate the service by giving 30 days' notice), or 24 month contract term (early termination fees apply). See the Minimum Total Cost applicable to each plan in the information about pricing section. Pro-rata credits are applied upon request. Any post paid costs will also be applied.
